

# BEHIND THE PIXELS

## ISSUE 3

Habbo Merchandise Through The Years (By Mark)

Here's a photographic retrospective of stuff I found around the office on my lunch break. Apologies for the quality of the images, I was using my camera phone for the first time. Tell you what, I found so much stuff that I had to leave most of it out, otherwise this issue would be close to seventy or so pages of out of focus photos. Altogether now: SWAAAAAAAGGGGGG

Released in 2007. The title track “Habbo Theme” by DJ Fuse was recorded by DJ Orkidea who is a famous Finnish DJ.

Other songs on the album (swiped from habbowiki.org so I didn't have to type it all out):

- Behind These Hazel Eyes" (Kelly Clarkson) – 3:17

- "Mathalaulu" (PMMP) – 3:49
- "Unohda en" (Ilkka Jääskeläinen) – 3:42
- "Pidä kädestä" (Indica) – 3:47

This was an unused prototype from 2006/7. Apologies for the terrible picture, someone was trying to talk to me at the time about the new Teenage Mutant Ninja Turtles movie and how the turtles were now going to be aliens. Sacrilege I say!

This is a doormat, with several coffee stains on. None of which are mine.

These CD was allegedly released in Germany in 2007, allegedly. I found this buried at the bottom of a cabinet, and no one claims to know anything about it. It features music by a bunch of people I've never heard of, and the Gorillaz. Who I met once, back when the Gorillaz were touring all the Habbo sites and Murdoch got banned in Habbo Finland.

A promo piece to show off the benefits of Habbo TV. Despite the brilliance of the presentation, the series was never picked up.

I saw this hanging up at the far side of the Habbo offices where no sane man dares to tread. It has something to do with the old Mobiles Disco site which was created prior to Habbo.

A promo piece for Habbo.no. It has a nice little set of translations and notes on the back page.

Apparently "Sirthomas" is a Sikkerhetssjefen, and ROFL means "Ruller Og Flirer Lattermildt" and thx means "Thanks". It also mentions Aurora, who went on to become Puffin. Actually Puffin helped put the whole thing together. The booklet

was included in a popular teen music magazine in Norway, TOPP, and because the booklet included a code for 25 Credits quite a few magazines went missing from the shelves of newsagents.

Inside of the Norwegian book.
